

- ✓ **School fundraising idea for a mufti day via gold coin donation**
- ✓ Wear red and green for TS!
- ✓ Try **hanging on a tic** by not blinking for 1 minute in school assembly to know how it feels to try to stop a tic

Hang on a tic!

It's Tourette Syndrome

It only takes a tic to help us share the message

Hang on a tic!

is intended to make us **stop, think** and **understand** more about Tourette Syndrome. It also represents what people living with TS feel they have to do on a daily basis to be accepted.

Tourette Syndrome (TS) is a neurological disorder for which there is no known cure. **Awareness, understanding** and **acceptance** are our key strategies to improve the quality of life for those with TS.

A little known fact is TS affects 1% of the population.

We are asking people to donate what one minute of their time is worth, so we can have something to **'hang on to'** for the continuation and development of support, education and resource programs.

It only takes a tic — so give a minute!

For further information on TS or to donate visit
